Final PA 04-15-2011 SHPO.docx

David – Attached is a copy of the April version of the PA with edits from the SHPO. The section III Tribal Coordination, with the ARRC working group, changed substantially. The III.A. working group started as a tribal consultation/coordination working group. The changes made in the final version added the Iditarod Historic Dog Sled District without adding representation from the interest groups associated with the dog sled district. The simplest solution to this late change in the document would be to expand the membership of the working group and change the purpose of the section III to general coordination, and not just tribal coordination. Also, the ARRC needs to submit the final MOU to STB and SHPO for approval.
